Chemistry MS
Civil Engineering MS
Computer Science MS
Electrical Engineering MSEE
Engineering Management MSEM
Environmental Health and Safety MEnvHlthSa
Geological Sciences MS
Master of Engineering MEng
Mechanical Engineering MSME
Physics MS, Certificate

TUITION & FINANCIAL ASSISTANCE
Tuition: Tuition at the University of Minnesota varies and is assessed according to your:
• degree or other program registration
• enrollment level
• residency status
• residency in a state or province with a reciprocity agreement

Please visit http://z.umn.edu/gradtuition for details on tuition rates for the program(s) in which you are interested.

Assistantships: For graduate students, the most common financial assistance comes through graduate assistantships—teaching or research under the direction of a faculty member. Assistantships are awarded by individual graduate programs. Almost half of all graduate students at the University of Minnesota receive full or partial tuition funding through graduate research or teaching assistantships. These positions also offer competitive salaries and health insurance.

Fellowships: Graduate fellowships, awards based on academic merit, are available to incoming and currently enrolled graduate students at the University of Minnesota. For more information see: www.grad.umn.edu.

PROGRAM RANKINGS
Many of the University of Minnesota’s programs are ranked among the best in the world by such organizations as the National Research Council, the Center for Measuring University Performance, U.S. News & World Report, and the Academic Ranking of World Universities at Shanghai Jiaotong University.

HOUSING OPTIONS
Housing is available for graduate students in residence halls on campus or in off-campus housing in Minneapolis or St. Paul. There are also wonderful housing opportunities for students with families. For more information visit www.housing.umn.edu.

TEST SCORES
Many, but not all, graduate and professional programs at the University require standardized tests like the GRE, GMAT, LSAT, etc. Please check to see if your program requires the test. You can find preferred scores on program websites or by contacting the program directly.

TOEFL, IELTS, or MELAB: Most degree programs require a minimum score of 79 on the Internet-based TOEFL (plus section scores of at least 21 on the writing section and 19 on the reading section), 6.5 on IELTS (plus section scores of at least 6.5 on the writing section and 6.5 on the reading section), or 80 on MELAB. Many programs have higher minimum requirements.

DIVERSE COMMUNITIES
A diverse student body enriches graduate education by providing a multiplicity of views and perspectives that enhance research, teaching, and the development of new knowledge.

A diverse mix of students promotes respect for, and opportunities to learn from, others with the broad range of backgrounds and experiences that constitute modern society.

The Office for Diversity in Graduate Education coordinates and leads the University’s initiatives in the recruitment, funding, retention and graduation of a diverse graduate and professional student body. Visit https://diversity.umn.edu/gradeducation for more information.

The Twin Cities is one of the largest and most cosmopolitan metro areas in the United States, while at the same time offering peaceful settings of lakes and parks. You can find out much more about the Twin Cities at http://www1.umn.edu/wishyouwerehere.

APPLICATION CHECKLIST FOR GRADUATE STUDENTS
☐ Apply for admission using the online application form.
☐ Upload your academic transcripts and other required materials directly to the application.
☐ Pay the application fee: $75 for U.S. applicants and permanent residents; $95 for international applicants

To request information: Z.UMN.EDU/GRADINFO
