Sampling in Mixed Research: An Inclusive Approach

Kathleen M. T. Collins, PhD, Department of Curriculum & Instruction, University of Arkansas

Thursday, April 11th, 9:30AM to 11:00AM
Bentson Healthy Communities Innovation Center, 4th Floor, Weaver-Densford Hall
University of Minnesota

- The objectives of this videoconference presentation are to: 1) review standard sampling designs; 2) identify quality indicators that impact sampling decisions; and 3) examine sampling designs and the purpose of mixing.

- Audience participation (voluntary): Please select a published mixed methods research study in your own area of interest, and a) identify the sample design; b) identify the mixed purpose; c) identify the research question(s); d) determine whether the sampling design addresses the mixed purpose and research question(s); and e) determine whether the sampling design supports the researcher’s conclusions and generalizations.

For more information or to RSVP please contact Dr. Joe Gaugler: gaug0015@umn.edu or 612-626-2485.
